

# I-10

**SYMMETRICAL TWO POST LIFT**  
10,000 lbs. Capacity

## Spot-Rite™ 3-Stage Front Arm Design

Accommodates vehicle spotting both symmetrically and asymmetrically. Position the vehicle doors in front of or behind the lift columns to prevent door damage and allow easy technician access!

## T100295 Extended Height Kit

The column extension kit is used to add an additional 2 feet (609.6 mm) to the top of the standard lift. This kit includes an extended length hose, return line, and cables to accommodate the extended height. Existing hardware included with the lift is used to attach the extensions.

This kit can be used on the current 500 series model i10 Forward Two Post Lifts.

## FEATURES:

Symmetrical column design

Spot-Rite™ 3-stage front arm design  
- spot vehicles asymmetrically or symmetrically

- Top mounted Direct-Pull lifting technology
